

International Workshop on ribosomal RNA technology

April 7 - 9, 2008, at the MPI in Bremen, Germany

30 years after the introduction of the three domains of life by Carl Woese it is time to summarise the current status of ribosomal RNA technology and discuss how to proceed best

Sessions

- Databases & Phylogeny
- Data Analysis & Biogeography
- Technology
- Diversity & Ecology

Confirmed speakers

- James Cole
Todd DeSantis
Wolfgang Ludwig
Christian von Mering
Rudolf Amann
Mitch Sogin
Dave Stahl
Stephen Giovannoni
Erko Stackebrandt
Ramon Rossello-Mora
Gerhard Herndl
Jakob Pernthaler
Matthias Resmini
